Welcome! From your Professional & Public Education Committee Co-Chairs

Welcome to the MOA's 112th Convention at the beautiful Samoset Resort (and online)! Thank you for taking the time to join us in person or virtually. We are looking forward to a diverse mix of educational sessions as well as many other opportunities to connect, celebrate and enjoy our Maine DO Family this weekend.

We know that our members enjoy both in person and virtual/online CME options, and so we have strived to provide multiple formats and viewing options for recent events.

The MOA Program Committee will soon be asking for your feedback to guide the direction for our 2024 events and beyond.

Given the rising costs of hybrid events, it is becoming increasingly difficult to continue to offer two large-scale hybrid events per year that include comprehensive in person and online viewing options. In order to meet our budget targets that allow us to be a sustainable organization long-term, we are seeking your input to help us re-evaluate our events and formats.

Please help us understand your needs and priorities to guide our decision on meeting formats, locations, topics, etc. for 2024 by participating in our CME survey, which will be launched at the end of this meeting with a link sent via email to all members and conference attendees.

If you participate in this survey, you will be entered to win \$200 off a 2024 event (discount will be applicable regardless of event format, Email required to be entered to win). The deadline to share your input is July 1st, 2023.

Thank you for trusting us to meet your CME needs. And we hope you enjoy the weekend!

Josephine Conte, DO

John Diefenderfer, DO

How do I claim my CME?

CME: Please log in to the event platform & complete your evaluations to get CME. All evals and CME attestation should be completed online via the virtual platform. For easy access, scan the QR code or follow this link: <https://www.thecmecenter.org/guestbook/4979905>.

(Login with the email you used to register for the Annual Convention)

For session objectives, faculty bios, full CME accreditation details and more, visit the 112th Annual Convention Virtual Platform

We will meet at the
Samoset Fitness Center Entrance
Must sign a waiver to participate.

A Message from your MOA President

Greetings friends and colleagues and Welcome to the 2023 112th Annual Convention!

I write to you for the last time as your President. I have always endeavored to represent your ideas and ideals, while steering and advocating for our group. It has been a wonderful experience and I have extended my views, and abilities of leadership, advocacy, osteopathic practice, and have enjoyed getting to know all of you a bit better.

I am not able to attend the conference this year as our middle child, Xander, is graduating high school, but will be with you in spirit (and possibly might pop-in online!). I will provide my President's report as usual but will be handing the running of this conference to your incoming president Jodie Hermann DO, who will also be inaugurated this year. Dr. Hermann has already put in a lot of work to get ready for this role and is excited to take over the steering of our organization. I sincerely hope that everyone will be present for both the inauguration and the reception celebration, so that she can hear and be with all of our members. I know you are in great hands going forward.

Please join me in thanking the MOA Education co-chairs Dr. Josephine Conte and Dr. John Diefenderfer, as well as the MOA Program Committee and our staff who all worked very hard to bring together a lot of talent that is going to provide content that is readily practical, applicable, and interesting.

I want to take a special moment to thank Dr. Josie Conte, who has been chairing the program committee for several years now and is going to be moving forward to other roles. I know that we all anticipate many great innovations for our future conferences!

We all have many opportunities for continuing education, but I believe the experience of learning in fellowship with our osteopathic peers, friends, and colleagues at MOA events is truly your best option (I might be biased but it does not mean this is not true)! We encourage you to take advantage of all that we offer at our hybrid events and to make meaningful connections with your osteopathic colleagues whether virtually or in person.

As physicians we face many challenges every day including decreased reimbursement, increased administrative and prior authorization burdens, expansion of non-physician practice rights, and possibly the worst violation is political intrusion on medical decision making. Each of these assaults contribute to practice dissatisfaction, burnout, and disenchantment with medical practice. I have heard these concerns from many of you, many times. The MOA staff, executive committee, board, members, and students that join us in our committee meetings all work to improve healthcare in our state and to allow you to continue to practice safely, and effectively. Together we work to “chip away” at those external factors that compromise physician satisfaction, increase burnout, and diminish the physician-patient relationship, ultimately worsening health outcomes for our patients.

Our organization continues to work to amplify our voice and foster needed change, but it takes many voices to create a lasting impact. Therefore, I am asking EVERYONE to consider not whether to increase your involvement, but how you are able to help, then please let us know. It will take ALL of us to protect our profession. As your President, I thank you all for your past and current support.

As always, I encourage you to talk to any of us on the board, executive committee, or our executive director, Amanda Richards by phone, in person, or email. Your opinions, ideas and voices are what make this the Maine Osteopathic Association.

Sincerely,

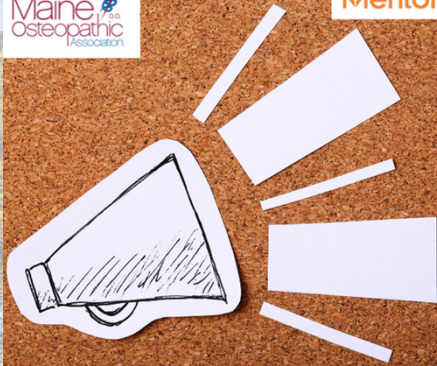

Brian Kaufman

Brian Kaufman, DO, FASAM, FACP, FACOI — MOA President (for a few more days)

Are you ready to explore mentoring?

MOA has teamed up with Mentor City - A **FREE**, online platform to connect you to the next generation of physicians.

Community Ground Rules

The MOA Program Committee has crafted some new community ground rules that we ask you to consider and honor throughout our time together.

Be professional, respectful and courteous-- of your peers, fellow colleagues and the speaker (criticism, sarcasm, raised voices, bullying, etc. will not be tolerated), save constructive feedback for evaluations. Agree to disagree when necessary.

Be mindful of who has the floor. Only the person with the microphone may ask a question/speak. Raise your hand to alert the moderator or speaker that you have a question. Please do not talk over the speaker or your colleagues. Take any side conversations outside so as not to disturb others.

Step Up. Step Back. Please limit your questions to one per session to allow all to participate in Q&A. Be as concise as possible.

Stay on topic. If you would like to have a conversation with the speaker or share your own comments, please do that one on one after the session.

Be present. Stay as alert and engaged as possible. Standing, or moving around the room to stay engaged is welcomed!

Join us 5:15pm-6:15pm for the Presidential Reception Honoring Incoming MOA President Jodie Hermann, DO!

Conference Details

Program Objectives: The overall objectives of this program are to 1. Highlight the evidence on new, revised, and standard approaches, guidelines and tools for screening, diagnosis and treatment for a variety of medical conditions as it pertains to medical practitioners in various specialties, with an emphasis on primary care; 2. Encourage & demonstrate the integration of osteopathic philosophy and principles into the practice of medicine; and 3. Provide information pertinent to improving the practice of medicine with themes such as professionalism, teamwork, communication and ethics. Each CME topic has its own set of learning objectives, which will be made available to registered attendees.

Special Needs: If you or your guest require any special arrangements or dietary needs to attend this program, please indicate your need on the registration form, or contact MOA at 207-623-1101.

Health & Safety: The safety of attendees is our top priority. MOA will continue to monitor local, state, and federal guidelines and work with the conference venue to comply with any relevant health & safety measures. It is assumed in-person attendees are vaccinated and asymptomatic. Should any additional safety measures be determined necessary by MOA, attendees will be notified.

Disclaimer: The information in this educational activity is provided for general medical education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition. The viewpoints expressed in this CME activity are those of the authors/faculty. They do not represent an endorsement by the MOA. In no event will the MOA be liable for any decision made or action taken in reliance upon the information provided through this CME activity. This event may be supported by independent educational grants from commercial interests. Complete information will be provided to participants prior to the activity. Conflict of Interest Disclosures for individuals in control of content will be provided prior to the start of the activity.

MOA Grievance Policy: All grievances should be initially directed in writing to the MOA Director by email to: info@mainedo.org who will share them with the MOA's Program Committee. Grievances will receive a response within 30 days of receipt. If you do not receive a satisfactory response, you may notify the Council of Continuing Medical Education, AOA, 142 East Ontario St., Chicago, IL 60611.

Accreditation Statements

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Osteopathic Association and Maine Osteopathic Association (MOA). The American Osteopathic Association is accredited by the ACCME to provide continuing medical education for physicians.

AMA CME: The American Osteopathic Association designates this live activity for a maximum of 21.25 AMA PRA Category 1 Credit™. Physicians should claim only credit commensurate with the extent of their participation in the activity.

AOA CME Accreditation: The Maine Osteopathic Association is accredited by the American Osteopathic Association to provide osteopathic continuing medical education for physicians. The Maine Osteopathic Association designates this program for 21.25 AOA Category 1-A credits and will report CME and specialty credits commensurate with the extent of the physician's participation in this activity.

AAFP Accreditation: The AAFP has reviewed 112th MOA Annual Convention and deemed it acceptable for up to 10.25 Live AAFP Prescribed credits. Term of Approval is from 06/02/2023 to 06/03/2023. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Please note that the following sessions do not carry AAFP credit.

- MOA Business Meeting
- Sound as Medicine: Neuroscience of Music Therapy

Prescribing CME: Designated sessions qualify for 3.0 Opioid Prescribing CME credit pursuant to licensing requirements for the Board of Licensure in Medicine in Maine and the Maine Osteopathic Board of Licensure. These sessions qualify for this credit:

- PMP Features to Enhance Safety (1.0 CME)
- Pain Management and Opioids: Balancing Risks and Benefits (2.0 CMEs)

DISCLOSURE AND CONFLICT OF INTEREST RESOLUTION:

All conflicts of interest of any individual(s) in a position to control the content of this CME activity will be identified and resolved prior to this educational activity being provided. Disclosure about provider and faculty relationships, or the lack thereof, will be provided to learners.

Claiming CME & Accessing Certificates

1. Watch the session live or in person and **complete the session evaluation online via the virtual platform.**
2. Once you have completed the sessions you wish to obtain credit for, please visit the "Certification" tab to **complete the overall evaluation** and generate your CME certificate.
 - a. MOA will NOT be sending a CME certificate (unless you completed credit for viewing research presentations-- see Research Forum tab for full details on this credit specifically). If you have any issues finding your certificate in the virtual platform or believe that it contains an error, please contact MOA staff.
 - b. MOA staff will report AOA CME credits (if applicable) directly to the AOA following the July 7th deadline. Once reported, they will become available in your TRAcme report via your AOA account.
